Can the bp220 charge and discharge at the same time?

To quickly charge the battery, we recommend to charge it while it is not in use. The BP220 is specially designed to be able to charge and discharge at same time. However, since each lithium battery has limited charge/discharge cycles (around 500 cycles), it is not recommended to use the battery when AC power is available.

Are lithium batteries safe?

Yes, lithium-ion batteries are very safe when properly designed, manufactured, and when used as intended. Are there any special requirements or certifications needed to handle lithium batteries? Yes, lithium batteries should ship in accordance with UN38.3 and hazmat guidelines. How do I return a battery?

What is a lithium ion battery?

Lithium-ion batteries are a relatively newer technology that offer intelligence, communication, higher energy density and longer life, while eliminating the need for service and maintenance like watering and following complicated charging processes.
