

The government of Indonesia has launched a programme that aims to build 100GW of solar PV in the coming years, mostly distributed across smaller projects in rural areas.

An officer checks solar panels at Nusantara's Solar Power Plant (PLTS) in North Penajam Paser, East Kalimantan, on August 1, 2024. Indonesia's solar potential stands at ...

New PT Trina Mas Agra Indonesia solar facility will deliver solar panels with an output of 720 watts-peak per unit. Indonesia has taken a major ...

New PT Trina Mas Agra Indonesia solar facility will deliver solar panels with an output of 720 watts-peak per unit. Indonesia has taken a major step toward strengthening its ...

LONGi, a global leader in solar photovoltaic (PV) solutions, has officially launched a strategic project to establish a state-of-the-art solar panel manufacturing facility in Indonesia, ...

Indonesia Solar Energy Outlook 2025 highlights the crucial role of solar power in improving Indonesia's energy security. The report analyzes how solar PV can ...

On June 24, 2025, LONGi officially announced its collaboration with Pertamina NRE to establish a cutting-edge solar panel manufacturing facility in ...

With a potential capacity of 32.5 GW, Indonesia's rooftop solar PV, as of June 2023, produces up to 95 MW, with the household sector accounting for 72% of the share.

LONGi as officially launched a strategic project to establish a state-of-the-art solar panel manufacturing facility in Indonesia, in collaboration with Pertamina New & Renewable ...

Indonesia, an archipelago forming over 17,000 islands, is rich in natural resources and has as much solar potential as it does challenges.

The project is set to commence manufacturing preparation by June 2025, significantly boosting Indonesia's domestic solar PV production capabilities. This collaboration ...

Technological advancements in solar energy are also propelling the growth of solar power plants in Indonesia. The introduction of advanced photovoltaic (PV) technologies, ...

Indonesia's new solar photovoltaic panels

In June 2024, Indonesian authorities issued a quota for the development of rooftop solar systems by the state electricity utility PLN for the period 2024-2028, aiming to add ...

On June 24, 2025, LONGi officially announced its collaboration with Pertamina NRE to establish a cutting-edge solar panel manufacturing facility in Indonesia. This partnership highlights both ...

The new initiative features plans for 80 GW of 1 MW solar minigrids with accompanying battery energy storage, to be deployed across 80,000 villages, alongside 20 ...

The Cirata floating solar plant is powered by 340,000 PV panels, which generate 192MW of clean electricity. The electricity produced will meet the needs of 50,000 Indonesian ...

Indonesia Solar Energy Outlook 2025 highlights the crucial role of solar power in improving Indonesia's energy security. The report analyzes how solar PV can help reduce dependence ...

Further details on Indonesia's solar panel manufacturing ambitions can be found in this report: Indonesia Solar Panel Manufacturing Report - PVKnowhow. The new solar power ...

These solar-plus-storage mini grids are set to be installed in 80,000 villages across Indonesia and will be managed and operated by village cooperative Merah Putih. The initiative ...

The Indonesia Institute for Essential Services Reform (IESR) recently released its "2025 Indonesia Solar Outlook" report, revealing that as ...

The Cirata Solar Floating Photovoltaic (FPV) Power Plant in Indonesia is the largest floating solar power plant in Southeast Asia. The first phase of the project, which has a ...

Govt launches Rp 1.5 trillion solar panel factory in Central Java The integrated solar PV factory at the Kendal Industrial Park, launched on Thursday and operated by ...

The Cirata floating solar plant is powered by 340,000 PV panels, which generate 192MW of clean electricity. The electricity produced will meet ...

Indonesia s new solar photovoltaic panels
