

Outdoor power supply merchant recommendation

Should you buy an outdoor power strip?

If those two sockets in your outdoor outlet aren't enough to fulfill your outdoor power needs, then you'll want to invest in a good outdoor power strip. These handy appliances can multiply a single socket into six or even 10, allowing you to power multiple strings of lights or various outdoor appliances simultaneously.

What is the best brand for a power supply?

Gigabyte, specifically the one that has a self destruct feature There arent, check each model individually. Seasonic is generally good but had some stinkers too, even the infamous Gigabyte with their exploding PSUs has some good models too, like Aorus line.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.

Is SeaSonic a good PSU brand?

Any higher end unit they make is solid AF, though still good idea to look up a reputable review or two. SeaSonic is also one of the few consumer-facing PSU brands that make their own units. They'll also serve as OEM for many big brands under Corsair or EVGA. Obviously they not only good choice.
