Are local bans blocking wind and solar energy?

Across America, local bans, moratoriums and construction impediments are blocking wind and solar energy with increasing levels of red tape. Here's what USA TODAY's analysis found.

Are discarded solar panels a problem?

Economic incentives are rapidly aligning to encourage customers to trade their existing panels for newer, cheaper, more efficient models. In an industry where circularity solutions such as recycling remain woefully inadequate, the sheer volume of discarded panels will soon pose a risk of existentially damaging proportions.

Is the US solar industry at risk?

Our Standards: The Thomson Reuters Trust Principles. The U.S. solar industry is at risk of installing 27% less capacity between 2026 and 2030 than before the passage of President Donald Trump's tax law that rolled back subsidies for such projects, a key trade group said in a report on Monday.

Is the US solar industry at risk of a 27% lower capacity?

REUTERS/Daniel Cole/File Photo Purchase Licensing Rights Sept 8 (Reuters) - The U.S. solar industry is at risk of installing 27% less capacity between 2026 and 2030 than before the passage of President Donald Trump's tax law that rolled back subsidies for such projects, a key trade group said in a report on Monday.

Who provides funding for solar energy?

Funding provided by the U.S. Department of Energy Office of Energy Efficiency and Renewable Energy Solar Energy Technologies Office. The views expressed in the article do not necessarily represent the views of the DOE or the U.S. Government.

How many counties have halted new solar panels?

At least 15% of counties in the U.S. have effectively halted new utility-scale wind, solar, or both, USA TODAY found. These are not the solar panels you might have on your house but installations significant enough to replace power plants, each one powering tens of thousands of homes.

Commerce's final determination, expected in May 2023, will have implications for solar panels imported from Cambodia, Malaysia, Thailand, or Vietnam, particularly after ...
