Is Saudi Arabia launching a battery energy storage system in Uzbekistan?

This year has seen battery storage announcements from the Central Asian nation coming thick and fast. Saudi Arabian developer ACWA Power has signed a binding implementation agreement with the Ministry of Energy (MoE) of Uzbekistan to develop up to 2 GWh of standalone battery energy storage system (BESS) capacity across the country.

Why is battery storage important in Uzbekistan?

Battery storage is being introduced to stabilize the grid and integrate renewable energy. The planned battery systems in Samarkand will store excess solar power and release it when demand is high. Uzbekistan continues to attract foreign investment in renewable energy.

Why is Uzbekistan developing solar power?

The planned battery systems in Samarkand will store excess solar power and release it when demand is high. Uzbekistan continues to attract foreign investment in renewable energy. The country has been working with international banks and private companies to develop solar, wind, and hydroelectric projects.
